### PROVINCIAL NEWS BULLETIN

(Classed by Publicity Commissioner  
Government Buildings, Edmonton.)

Hon. G. Hoadley, Minister of Agriculture, and S. G. Carlyle, Live Stock Commissioner, have returned from the States and Eastern Canada. During his trip to Ottawa Mr. Hoadley took up matters of importance with the Dominion Government, including the securing of a market for Alberta produce of hogs, and the question of letting down the bars by the U.S. for the export of western grain-fed cattle into the States. The question of raising sales tax up to 25 cents per pound, as proposed by the U.S. for grain brought in by the Alberta Government from the U.S. for grain-hopper bait, was also taken up. Mr. Hoadley had satisfactory interview on these questions.

A special session of the Alberta Legislature is in progress this week to give effect to legislation which will bring into being, in accordance with recent Dominion legislation, a school board for the homing of the school board of the province. This is the first time since the passing of the Saskatchewan, and it is anticipated also by Manitoba. Several features of the national gas question in the province may also come up for consideration at the special session, which is expected to last not more than two days or two weeks.

Without a dissenting voice farmers of the New West irrigation districts of the province, and the irrigation district and take water from the Canada Land & Irrigation Co. at a cost which has been estimated at \$10 to \$12 per acre. The area in the district will have about 1,700 irrigable acres and every effort is to be put forth to have the construction work done this summer in order that the water can be put to use. The area in the district will have about 1,700 irrigable acres and every effort is to be put forth to have the construction work done this summer in order that the water can be put to use.

Five or six thousand acres in the Mountain View and Caldwell districts of the province of Ontario will be brought under irrigation within the next few months of years without costing the Government a cent. The water rights of the land will be guaranteed by the Government at only giving the water rights. This is the plan of residents of these districts.

What is stated to be one of the finest young Hobbskins built on the American continent, has been purchased by the Alberta Department of Agriculture for the high-class Hobbskins herd at Story Point demonstration farm, which will later be moved to the government farm at Haffner, near Edmonton.

Proposals to utilize the present buildings of the Gleichen Agricultural School which is being closed, for an industrial home for boys, are now being considered by the Provincial Government. It is likely a decision will be made along this line.

It is proposed to construct a hydro-electric plant on the Bow River, east of Calgary, to consist of four dams the first of which will cost \$100,000. The project is that of the Alberta Hydro-Electric Co. Ltd., of Calgary.

Mr. H. Guzewell has arrived from Brandon, Man., and is now in charge of the Gleichen Jewellery Co. He has had eighteen years experience in this line of business and evidently is a dealer, who will make a splendid addition to the business men of our town.

## Next Chautauqua Opens Aug. 1 to 7th

### A Plain Country Woman's Chautauqua Views

"A Plain Country Woman" is a new deal. Few know her real name. Those who know her realized how genuine she was for she was in reality "a plain country woman," descended from an old southern English family that migrated to Indiana early in the nineteenth century, where Juliet was born. She lived in a small town, Rockville, Indiana, where she wrote all her articles. The plain, unadorned tone of these articles proved their greatest charm.

What this unassuming wise country woman thought about Chautauqua will prove of interest to you. It is printed with the permission of the author, granted several years before her death.

We have just closed a most rambling session of our annual Chautauqua meeting. Everybody is dog tired and you can hear a pin drop in the town, but everybody is uplifted, and when we meet each other we exclaim, "Wheat it just grand!"

The mutuality of the thing is its strongest appeal and the consciousness of this thought is the strongest appeal to us to cultivate more and more in our lives the thing which we can share with our neighbors. There is nothing like a common interest to produce life and a community.

The Chautauqua movement continues the great uplifting qualities of old-time barbeque, camp meetings and country fairs, which was the simple roots of a declining civilization, has no place in the list of things that better a community. The spirit of the street fair and carnival was rivalry and tolerance of the vulgar and the cheap in entertainment. I am so glad that we finally got sick of it and that the points quickly related and began asking for something worth seeing and hearing. We were climbing out of the awful slump we took ten or fifteen years ago when the cry was "Everything good!"

Twenty years, but lift up my voice in forthright protest against things which other people like and helped make popular. It seems as if they just have to run their round and get so used that the warlike may—though a fool—(this is one of my favorite scriptural non-motom can see it) and every body with us accord as for a change.

Still, maybe it is best to lift up your voice, though your fellow will call you a "kicker" and otherwise maltreat you. Anyway, we did get sick of street fairs and carnivals, we did turn around and demand something decent, something with brains in it, something with purpose and morality and spiritual uplift.

So, then we got the Chautauqua. And here where I live we certainly got the biggest thing for the money that a community ever purchased. Our people work for nothing, just for the good of the community. And when you get a bunch of people doing that with everybody helping the hand upholding them, you come just about finding the secret of things, discovering how the millennium is to be ushered in—just by everybody thinking and doing good without the hideous personal take off that has damned us as a people for so many years!

That's what I am so glad that we are not going to do anything "for our health" has grown upon us. We have nurtured our children in it until selfishness, disregard for the rights of others for the happiness of others, for the salvation of others, has become the second nature of the American people.

Last Wednesday night at 12:40 the piston rod in the engine at the town power house broke and for two nights the electric light was off. I was lucky for Tom Prentiss, who was in charge at the time, that a moment before the accident he took a walk to the door or he might not have been able to tell the story of how it happened, and there was no one else about the premises at the time. Tom had just finished oiling and had everything running smoothly and sat down in front of the engine to rest a while. He had no more than started himself comfortably when he jumped up and started for the door, for no reason he can now think of. Had he remained where he had been he undoubtedly would have been badly scalded, if not fatally. Though the hot steam had made his way and turned off the steam, thereby, perchance, saving considerable damage.

### COMING EVENTS

- July 26 — Dance at R. M. Mace's, Blind Creek.
- July 27 — Eastern Star picnic on Bow River.
- July 29 — "Lola Bets" a special all star cast, at the opera house.

- Aug. 28—Gleichen Public School Opens for the new term.
- Sept. 20—Gleichen School Fair at Gleichen.
- Sept. 29—Queenstown School Fair at Mito.

### UNION CHURCH

July 30th—  
Sunday School 10 a.m.  
Morning service 11 a.m.  
Altar School Hours 2:30 p.m.

The open air service held last Sunday evening at Mr. Daw's home was attended by more than one hundred and fifty people. Shortly after seven o'clock, when the sun began to set, a large group of people were walking about the lovely lawn or looking over the garden where all kinds of vegetables, sheltered by the of the finest grove of trees in the land, and watered from the irrigation ditch nearby, showed luxuriant growth. Others were casting longing eyes toward the trackway patch, where a few specimens of a real B.C. crop still remained.

Singing in the open air requires practice but every person appreciated and joined in the old favorite hymns. The sermon was based on James 4:7, and was practical and helpful.

On behalf of the Managing Board, Mr. Macken tendered the thanks of the people to Mr. and Mrs. Daw, and to the appreciation of the Board for the beautiful service to its location. The aim of Union Church he said was to bring the gospel to the people of the whole district and commend itself only by what it was accomplishing to do. He asked for co-operation and fuller co-operation in the great task of the church.

On request the meeting was closed by singing: "God be with you till we meet again!"

During the past week the Provincial Cabinet had discussions with the Hon. Charles Stewart, Dominion Minister of Interior, on a co-operative immigration policy. It has been decided that the government will co-operate in a new scheme which will provide for the following up of settlers after they reach the province. It is the idea of the government to have representatives of the provinces and the Dominion will be appointed to supervise the operation of the scheme. Alberta will have two representatives of this board.

GLEICHEN, ALTA., WEDNESDAY, JULY 26, 1922

Irrigation Convention now in Session.

The Western Canada Irrigation Association sixteenth annual convention which opens today at Maple Creek, Sask. And after a two days session moves west to Brooks, Alberta, for another two days meeting, is of importance to every farmer in these parts, and we understand quite a number from hereabouts intend to at least be present for the program at Brooks. We have received a copy of the program and it contains a list of subjects for discussion that will interest every person, and associated with them are the names of many of the most prominent agriculturists in Canada and the United States. At Brooks there will be addresses by the Lieut.-Governor of Alberta, the Mayor of Brooks, Hon. George Howley, Dean Howes, Hon. W. R. Motherwell, I. D. O'Donnell, Dr. Elwood Mead, Dr. Alfred Atkinson, and others. There will be headquarters of the country surrounding Brooks, visiting some of the irrigated farms and interesting irrigation structures, and luncheon at Patricia. Also a banquet and entertainment by the people of Brooks at the headquarters of the Eastern Section of the C.P.R. Irrigation Block. Thus an interesting and social two days are assured.

Short Course for Children.

One of the most interesting experiments yet tried by the provincial department of agriculture, and one which is proving immensely successful, is the short course school of a week's duration held at Olds school of Agriculture for 69 boys and girls, winners at the school fairs of last year in seventeen districts from W. Weatwin south to Didsbury. The boys and girls attending this course ranged in age from 9 to 15, and some of them had never been further away from home alone than their own agricultural fair. The young students were given instruction in many subjects, the girls attending sewing, cooking and horticulture and the boys being given lessons in farm engineering, stock judging, grain judging, soil cultivation, horticulture, carpentry and other branches of agriculture.

Provision for recreation was also made, and the week proved to be a most interesting one for the young students. Among the outsiders who spoke to the boys and girls were Nelson Smith, M.L.A. of Olds, G. W. Smith, M.L.A. of Red Deer, W. S. Stephen, crop commissioner of Alberta, and Alex. Galbraith, superintendent of fairs and institutes. Under the direction of C. G. Groff, publicity commissioner, motion pictures and other pictures were taken of the students and the classes.

Treatment for Poisoned Stock.

In several places in the southern part of the province it has been found that cattle and other animals have become poisoned by eating bait for grasshoppers which had been scattered in the fields. Since the bait contains arsenic. Dr. Talbot, the provincial veterinarian, has issued a statement following a study of the matter, in which he says that the most successful treatment is for the antidote for the poison is hydrated oxide of iron, which should be administered in the form of a soft mass and must be freshly made and administered at once. Since, however, preparation of such an antidote would not be practicable for farmers who had to travel long distances to obtain the ingredient, other remedies have been tried. It has been found that a mixture of ferric hydrate and magnesia will act promptly and effectively. For this preparation it is necessary to keep on hand in separate bottles 2 ounces of ferric sulphate solution diluted with four ounces water, and 180 grains magnesia made into a smooth mixture with half a pint of water. When needed, the two should be mixed and shaken until a thin mass result. This should be administered in large quantities at short intervals, and followed with emetics such as alum, epicaea or sulphate of zinc. The fact should not be forgotten that large doses of lime water, olive oil, carbon oil, or mucilaginous drinks, as oatmeal gruel, are helpful. Stimulants might also be given and if there is well marked prostration, warmth should be applied to the animal by means of hot blankets.

In spite of the present unsatisfactory state of the bond market the Alberta Government was able to dispose of an issue of \$3,200,000 five year 5 1/2 per cent. bonds at a price of 99.14. The purchasers were a syndicate composed of Wood Gundy & Co. of Toronto, the Dominion Securities Co. and Bilton Read & Co. of New York. The sale was made on private bids, after open bids on the bonds with a 30-year term had been rejected as too low. The price finally received was considered most satisfactory under the present conditions.

The revised estimates of the area in crop this year, reported from Edmonton, gives the wheat acreage at 5,232,000 acres, oats 2,832,000 acres, barley 532,000, 280,000, mixed grains 10,000, 13, 25,000, hay and clover 450,000 and alfalfa 30,000. Wheat shows an increase over last year of about 5 per cent, oats show a decrease of 3 per cent, rye an increase of 26 per cent. The potato acreage has been reduced about 4 per cent this year.

Spurce lumber from Alberta is very highly prized in the Eastern States, according to a prominent lumberman, who was a visitor to Edmonton.

Mrs. Farnham left last week to spend a couple of weeks at Banff.

Mrs. E. Menard left on Sunday to spend a couple of weeks in Calgary visiting Mrs. F. Hamar.

Mrs. James Young has gone to Pigeon, Sask., to visit her friend Mrs. C. A. Millie for a short time.

All the blacksmiths between Calgary and Brooks are to picnic at the North Camp, Saturday afternoon, August 15th. They invite all their friends.

Farmers take notice.—Do not bring your hogs expecting us to buy except on shipping days. Call us for information. Pioneer Market, Chas. Barach, Prop.

C. J. Suttell, our popular C.P.R. agent, left last week with his wife and family to visit Quil Lake and to make an auto tour of the north country. They will be absent about three weeks. He is being relieved by H. W. Baldwin.

Thos. W. Davidson has the contract of re-painting the Agency buildings on the Blackfoot Indian Reserve and already has greatly improved them in appearance with a very pretty shade of grey and black trimmings. This with the beautiful lawns, trees, shrubs, flowers and garden, makes it a very desirable place to visit at the present time.

The Gleichen Public School will reopen on Monday, August 28th, for the new term. A full staff of teachers has now been secured, two having resigned, Miss Carter and Miss Stevens. Their positions will be occupied by Mrs. Keith Pender of Gleichen and Miss Garrison of Jenner.

Messrs. Bob Stabback, Geo. Evans, Bill Brown and Fred Hastings pulled out in a "Lizzie" at 11:30 Saturday night on route to Banff. Oronogram state they passed Ralph Umbrie's (4 miles north) at 2:30 a.m., reached Calgary at 4:30 a.m. and Banff at 1:30 p.m. Later, having a gay time.

A pretty good story is being told on a bootlegger, of course it did not happen in Gleichen. The farmer had not been in town for a week and then he called upon the doctor with: "Doc, I may have led by you many a time, but this time I am real sick, and must have a bottle of bapt booze that can be got. What's wrong?" "I'll tell you. I was in town a week ago and took home a bargain. I got a whole gallon of 'home-brew' for just \$20. When I got home I took two or three shots of the mixture. It was fierce and I wondered would I ever reach town again. I gave the rest of the gallon to the pig and I haven't seen them since. Thanks!"
